

February 23, 2021

Attention Families, Residents and Staff of Valley Manor

Valley Manor has just received the green light to vaccinate our residents and some staff for their **second dose** on Friday, February 26th, 2021. This is wonderful news for Valley Manor and your loved one!

This day is extremely important to us here at Valley Manor. We are so happy to be able to share this wonderful news.

We continue to work very hard alongside Public Health, the Ministry of Health and the Ministry of Long Term Care to ensure a very detailed and seamless delivery of the vaccine to our residents. Public Health, Renfrew County Paramedics, and our local Family Health Team will be onsite to assist our very experienced team with the vaccine delivery and after care.

We received all of the consents for our residents in advance; therefore we are prepared and ready to go.

We also continue to thank our leadership, staff members, volunteers and healthcare partners for their continued dedication and hard work under challenging circumstances over the past year. We will continue to do everything we can to deliver the best care possible for your loved one in these unprecedented and challenging circumstances.

Should you have any questions or concerns about the vaccination clinic on Friday, please do not hesitate to contact our Infection Control Coordinator Tina O'Malley at 613-756-2643 ext:233

Thank you once more for your patience and incredible support during this time.

Respectfully,

Trisha DesLaurier
