Memo

To: Residents, Family, and Staff
From: Gail Yantha, DOC
Date: August 2, 2024
Re: Outbreak Update

Public Health has notified us that Valley Manor's outbreak status has been downgraded to "Suspect Outbreak" (nausea/vomiting/diarrhea) as of August 2, 2024.

Two staff are affected and are isolating at home.

Public Health has not closed the home to visitors. Visitors are encouraged to remain at home if feeling unwell.

Residents continue to dine and have activities together.

We will continue to monitor Residents and Staff closely for onset of any symptoms and respond accordingly to policy.

Hand washing with soap and water is the best protection for avoiding the illness.

Thank-you for your continued support,

Gail Yantha, DOC
