

VALLEY MANOR ANNOUNCES NEW ADMINISTRATOR

We are pleased to introduce our new Administrator, Cathy Borutski, who brings a progressive leadership background in the healthcare sector, with experience spanning acute care, long term care, and retirement living.

Cathy began her career in acute care as a Food Service Supervisor and advanced through a variety of operational and resident focused roles, including Dietary Manager, Resident Services Coordinator, and Marketing Manager. After completing the Long-Term Care Management program, she transitioned into executive leadership, serving as an Executive Director and later as a Senior Executive Director, where she supported multiple communities and contributed to strengthening regional performance.

In 2022, Cathy led the opening of a new retirement residence in Waterloo, overseeing start-up operations, team development, and community integration. Following her relocation in 2023, she continued her leadership journey as General Manager at Champlain Gardens, with a focus on operational excellence and enhancing the resident experience.

We are excited to welcome Cathy to Valley Manor Long Term Care and look forward to the leadership, experience, and commitment she brings to our community.
